Dear Doug,

I am writing to let you know that the WIFIA program received letters of interest (LOIs) from prospective borrowers in your region. I would like your assistance to notify the appropriate State Revolving Fund program regarding these LOIs and set up a follow-up conference call to answer any questions.

Attached are our notification letters. Please provide these to the appropriate contact in the state as soon as possible. EPA made a public announcement about the number of WIFIA LOIs received, including a list of prospective borrowers and projects on Friday, July 19, 2019.

Like last year, the WIFIA program would like to host a conference call with each region and its state SRF programs to answer any questions about the process and projects. I am available at most times during the weeks of July 29 and August 5. Please let me know some times that would work for this call.

Thank you in advance for your assistance with notifying the state SRF programs. Please let me know if you have any questions.

Arielle
